Guest lecturers

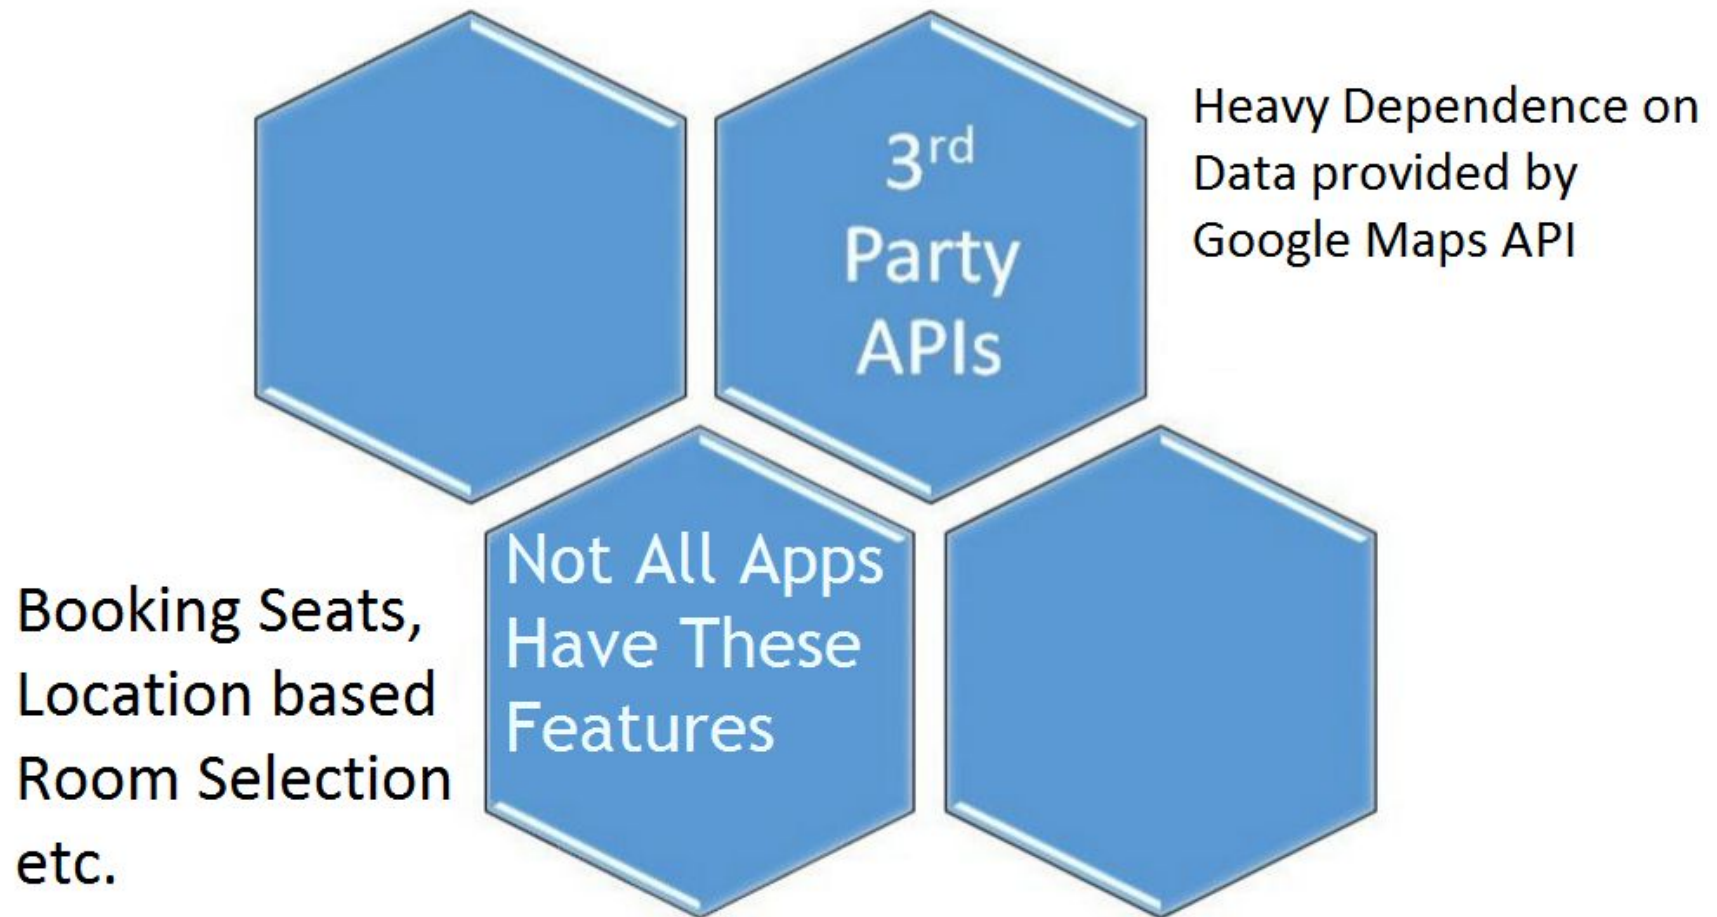

● Introduction: All-Available

- ❑ All-available is an app which is used by the students, faculty members and all the guests that are visiting a particular university.
- ❑ It is used for booking rooms and seats across all the buildings belonging to the university.
- ❑ It serves as an alternative to the existing system that allows us to book rooms at Carnegie Mellon University Silicon Valley.
- ❑ The main idea behind it is to check if there are rooms and seats available for the students/faculties or not.

Product Walk Through

● Use case 1- Login and Signup

There are two choices for each user:

- If you are a new user, you should signup first.
- If you are an old user, you should login.

First page of the app

The screenshot shows a mobile application interface. At the top, there is a blue header bar with the text 'AllAvailable' on the left and a status bar on the right showing a signal icon, a battery icon, and the time '1:26'. Below the header, the main content area has a light gray background. It starts with the title 'All Available' in a large, dark gray font. Below the title, there are two input fields. The first is labeled 'username:' in a small, dark gray font, followed by a text input field with the placeholder text 'username' in a light gray font. The second is labeled 'password:' in a small, dark gray font, followed by a text input field with the placeholder text 'password' in a light gray font. At the bottom of the form, there are two buttons: 'LOGIN' and 'SIGNUP', both in a light gray font on a light gray background. The bottom of the screen shows a black navigation bar with three white icons: a back arrow, a circle, and a square.

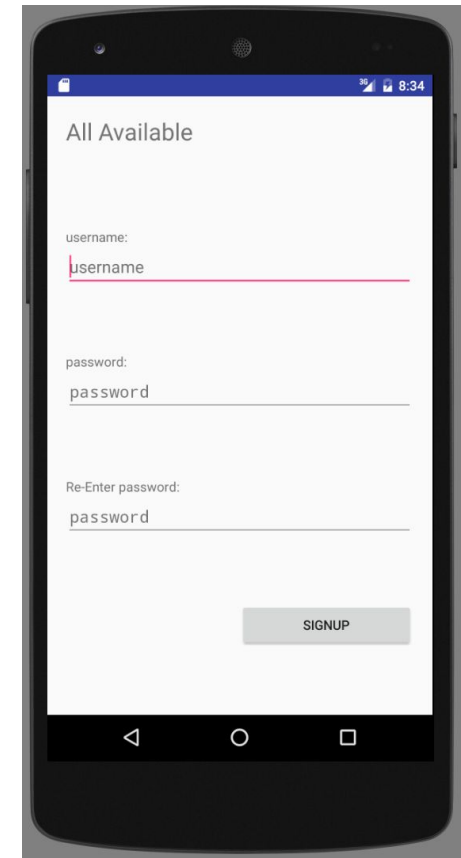

● Use case 1- Login and Signup

Are You Frustrated?

Are all the Rooms Booked?

Thanks to All-Available

You can now Book seats... Isn't it great you have All-Available app?

Number of U.S. Colleges and Universities and Degrees Awarded, 2005

	Number	Enrollment
Public 4-year institutions	629	6,837,605
Private 4-year institutions	1,845	4,161,815
Public 2-year institutions	1,070	6,184,229
Private 2-year institutions	596	303,826
Total	4,140	17,487,475
Undergraduate		14,473,884
Graduate		2,097,511
Professional		329,076

And these are institutes only in the United States and on an average each university has 20 buildings. Number of Enrolled students and number of faculty members and staff also indicate that the market for this app is huge.
